

# make room for life

MOVE IN ANY DIRECTION 360°

2 VESA COMPATIBLE TV BRACKETS

WIRE MANAGEMENT CHANNEL

The innovative full-motion **MF215** features **Virtual Axis 3D™** technology for effortless, fluid motion in every direction possible up to 39.4cm from the wall. Just set the tension knob and forget it. Keyholes on the faceplate slide onto the TV and into place for effortless bracket alignment and easy installation. Includes two Vesa-compatible TV brackets to fit virtually any 15" to 37" LCD TV. Ideal for corner installations in a room which make the TV appear to be floating. Don't forget every Sanus Mount is **UL™** certified. This means the mount has been tested to hold four times its rated weight (in this case 27kg) for a minimum of one minute before coming off the wall. When you think safety, think Sanus. The **MF215** has another three family members that complete the range. Check them out on [www.sanus.com.au](http://www.sanus.com.au) If you are looking for quality, there's only one word you need to remember – **Sanus**.
